

Imagine Edgenuity[®]

Rigorous, research-based curriculum designed
to ignite learning breakthroughs

Reach Every Learner with a Flexible Digital Solution

Whether a student needs more rigorous coursework to accelerate learning or the opportunity to recover credits, Imagine Edgenuity can help them meet their personal academic goals.

Our robust suite of core, electives, and honors courses can be completed for initial credit and credit recovery. We designed Imagine Edgenuity to meet the needs of evolving classrooms. It can be implemented in any in-person, blended, or virtual learning model.

AN EVIDENCE-BASED PROGRAM

Imagine Edgenuity draws upon decades of pedagogical and instructional research and insights from industry experts and educators to deliver effective and engaging instructional content that empowers each student to take an active role in their learning.

- Credit Recovery Students Using Edgenuity Recover 26 Percent More Credits and Graduate at a Higher Rate than Their Peers at Cypress Fairbanks ISD
- After Using Imagine Edgenuity for Two Years, Vertus Charter School Students Erase Mathematics Achievement Gap

Credit Recovery Courses

Feature instruction and assignments to meet Common Core and state standards

Have limited or no teacher-graded assignments

Take an average of 40 hours per semester

Initial Credit Courses

Feature extended instruction and assignments for complete coverage of standards

Contain teacher-graded assignments

Take an average of 50 hours per semester

Honors Courses

Have additional instruction and/or assignments to extend learning

Contain additional and more rigorous teacher-graded assignments

Take an average of 60 hours per semester

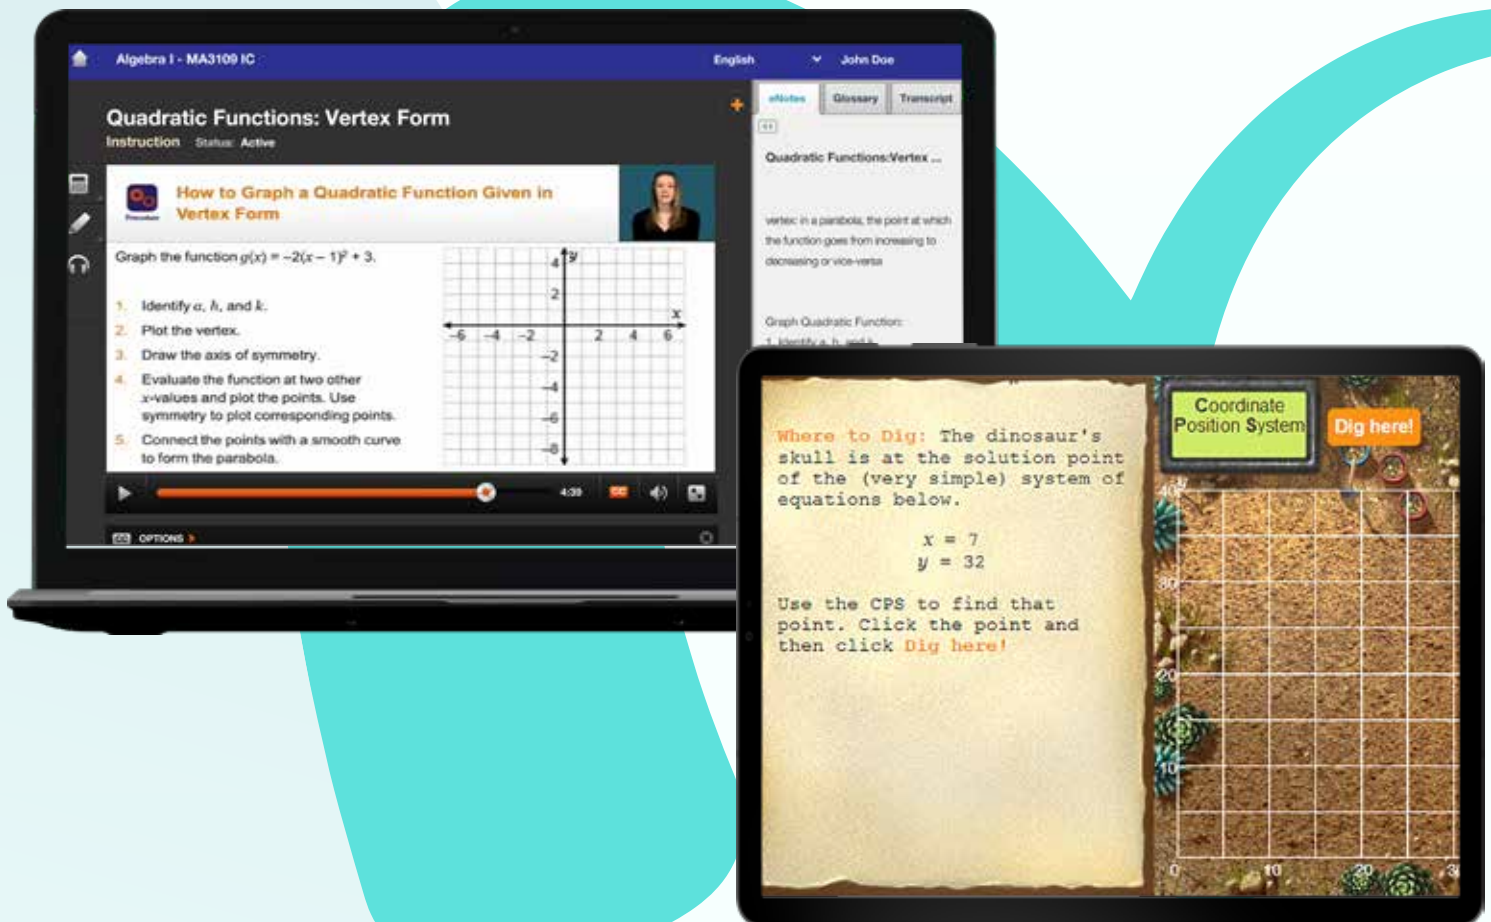

Deliver a Comprehensive Digital Curriculum with Confidence

Our belief in the power of every learner's unique potential is what drives us to create interactive, dynamic courses with engaging tools for all students.

Our curriculum is grounded in research and based on the rigor and high expectations of current state standards. Courses are created by teams of experienced educators and instructional designers with expertise in curriculum development, instructional technology, and content-area education.

- Courses feature rigorous, explicit instruction led by expert on-screen teachers.
- Motivating, media-rich content provides students opportunities to explore and build understanding via engaging interactive instructional tools.
- A wide range of tasks, including independent reading, practice, guided online exploration, projects, and performance tasks help reinforce understanding.
- Formative, summative, and authentic assessments measure student mastery of the learning objectives.

Achieve More with Imagine Edgenuity

Measure, manage, and facilitate student success with powerful teacher tools.

By giving educators access to clear and measurable data in real time, we strive to help inform instruction and provide a personalized experience.

- Manage students more effectively by organizing students by period or classroom, and filter by grade level, subject, and other characteristics.
- Assign targeted content to groups of students to support differentiated instruction.
- Share reporting insights to collaborate with administrators and other teachers who share classes.

Promote academic integrity in your classroom.

With the increasing use of technology in student learning — whether working from home or in the classroom — the focus on ensuring academic integrity has never been greater. We are on the forefront of equipping both teachers and administrators with built-in, easy-to-access tools that work.

PLAGIARISM CHECKER*

This embedded feature automatically scans final student submissions looking for matches across the internet. When a match is found, the submission is flagged for the teacher, with a percent match and a link to download the detailed report.

IP REGISTRY

When activated, this feature can block students from accessing assessments from home—or block students from accessing Imagine Edgenuity from outside the school network at all.

SPEED RADAR*

Speed Radar flags students' activity log where they are progressing faster than normally expected. This can be a sign of low engagement with the coursework or, in some cases, indicates the use of scripting software to quickly advance through assigned tasks.

Student Name	Working	Thinking	Meditating	Praying	Anxious	Suspecting	Total Time
Kevin, Philip	00:00:00 - 00:00:01	00:00:01 - 00:00:02	00:00:02 - 00:00:03	00:00:03 - 00:00:04	00:00:04 - 00:00:05	00:00:05 - 00:00:06	00:00:06
St. Winona, Winona	00:00:00 - 00:00:01	00:00:01 - 00:00:02	00:00:02 - 00:00:03	00:00:03 - 00:00:04	00:00:04 - 00:00:05	00:00:05 - 00:00:06	00:00:06
Alvin, Emily	00:00:00 - 00:00:01	00:00:01 - 00:00:02	00:00:02 - 00:00:03	00:00:03 - 00:00:04	00:00:04 - 00:00:05	00:00:05 - 00:00:06	00:00:06
Bernice, Ryan	00:00:00 - 00:00:01	00:00:01 - 00:00:02	00:00:02 - 00:00:03	00:00:03 - 00:00:04	00:00:04 - 00:00:05	00:00:05 - 00:00:06	00:00:06
Samuel, John	00:00:00 - 00:00:01	00:00:01 - 00:00:02	00:00:02 - 00:00:03	00:00:03 - 00:00:04	00:00:04 - 00:00:05	00:00:05 - 00:00:06	00:00:06

SECURELOCK BROWSER EXPERIENCE

When turned on, this prevents students from opening new tabs, browsers, and programs while they're working in Imagine Edgenuity.

*To get these features added to your district, contact your Imagine Learning Account Executive about the Academic Integrity Bundle.

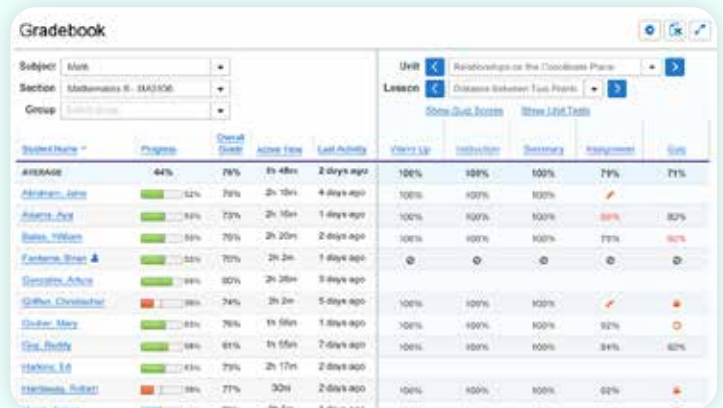

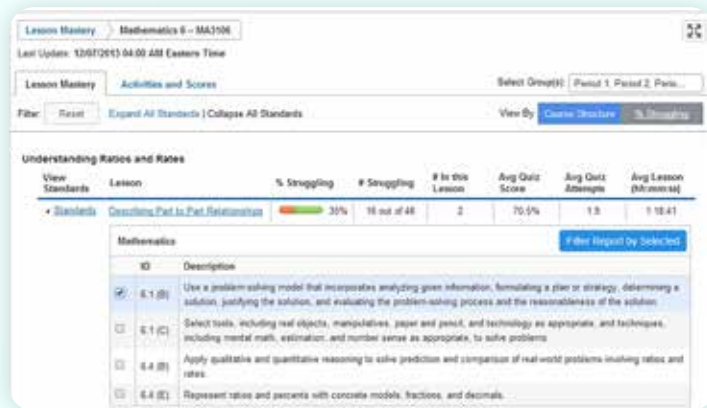

Enrich the Teacher Experience with Robust Classroom Management Tools

Personalize student needs with data-driven insights.

The Imagine Edgenuity dashboard provides real-time student data and in-depth reports.

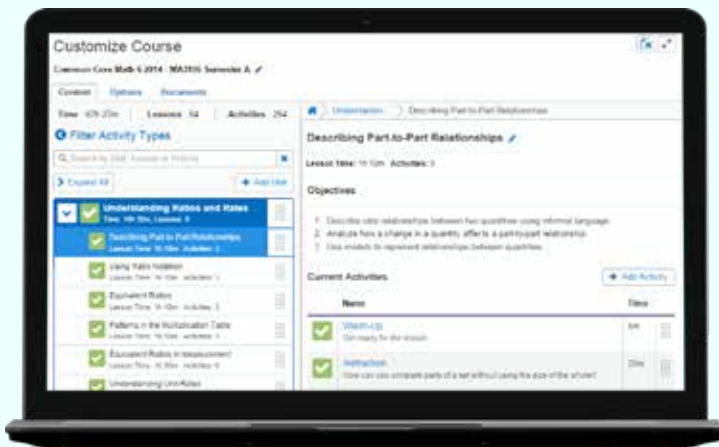

Administrators can measure student outcomes and empower teachers to personalize learning by focusing on student needs.

- The **Attendance Log** shows educators how much students are working in the program, and how they are spending their time.
- The **Lesson Mastery Report** gives educators a customizable view of student and class progress. Teachers can view average and individual student assessment scores by topic or standard.
- The **Gradebook** allows teachers to review and manage student performance across an entire course.

Customize Imagine Edgenuity to achieve your educational goals.

Customization tools allow educators to dynamically add, remove, or reorder content to tailor instruction to meet student needs.

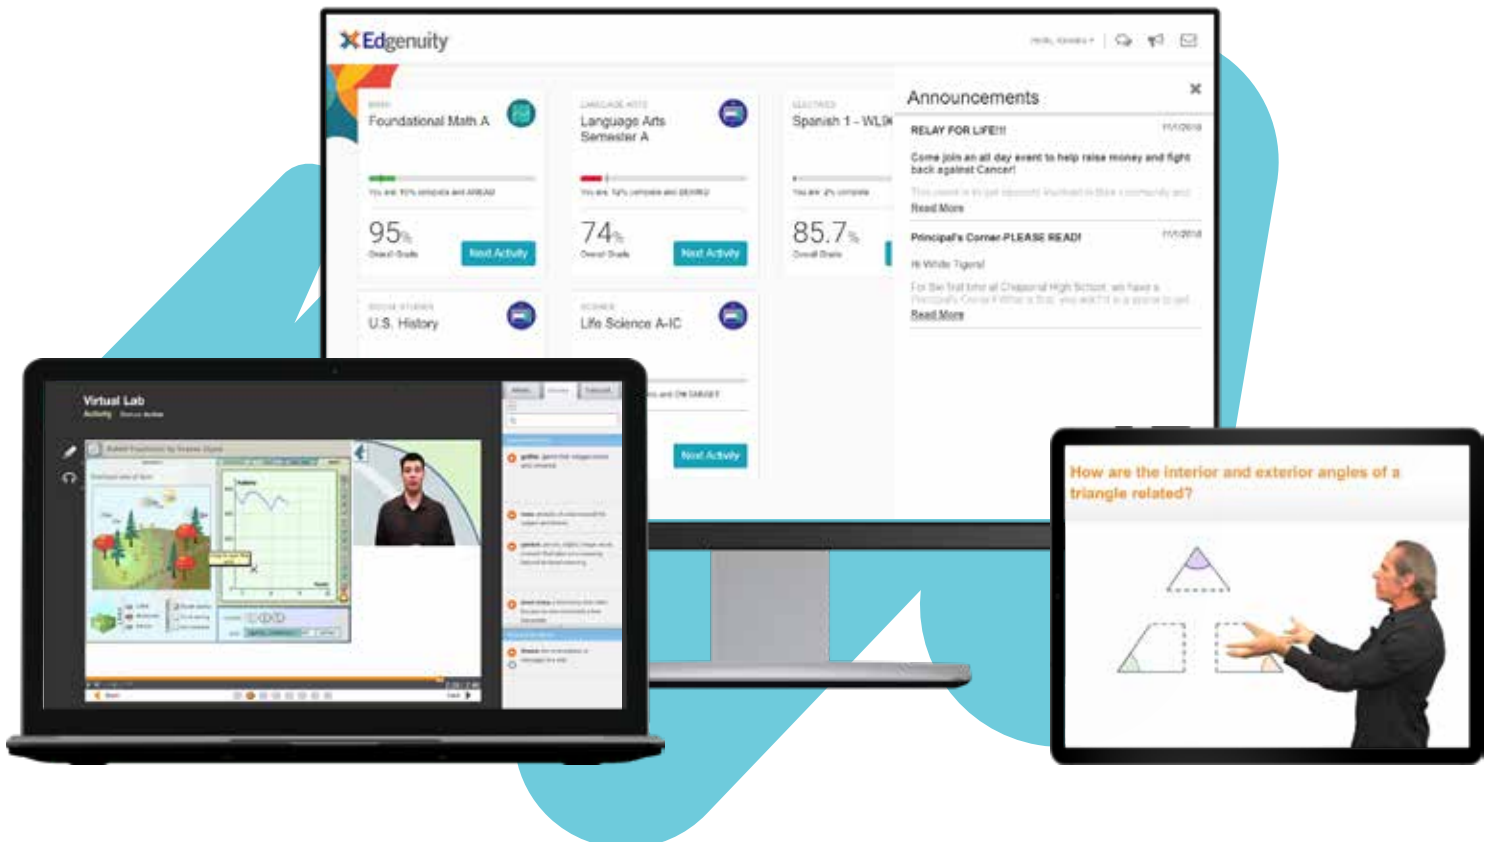

- Drag and drop units or lessons within a course to re-order the scope and sequence
- Remove entire units, lessons, or activity types
- Add lessons across domains using standards-based search or keyword search
- Create and add new activities or projects
- Pacing automatically adjusts to reflect changes

Help Students Take Interest in Their Learning

Encourage students to own their own learning with an engaging experience.

The Imagine Edgenuity student experience helps students take greater ownership of their learning and effectively plan their work.

- **Animations and simulations** provide explanation and modeling of key concepts
- **Digital highlighters and sticky notes** help students organize information, ask questions, and record observations
- **Read-aloud and translation tools** help English language learners and students with special needs
- **eNotes** is a point of use digital notebook that allows students to record, synthesize, and organize their thinking
- **Dynamic glossary** and a word look-up tool help students build their academic vocabulary, while transcripts and video captions enable students to follow along with the on-screen teacher
- **Point-of-use tools** like a calculator, graphic organizers, and other tools help students complete assignments and promote the deep transfer of knowledge and skills
- **CloseReader™** supports the active reading of complex texts with embedded comprehension questions, text and audio prompts, translation tools, and contextual definitions of new vocabulary words.

Create Learning Experience as Unique as Every Student

Ensure students feel prepared for high-stakes testing.

Imagine Edgenuity's Virtual Tutor courses help students develop the skills they need to be successful on end-of-course and exit exams, as well as the SAT®, ACT®, PSAT®, GED®, HiSET®, TASC™, ACCUPLACER®, and ASVAB®.

Help students take the next step in their learning journey.

Imagine Edgenuity's Advanced Placement® courses include rigorous coursework, an array of multimedia activities and assignments, and an online platform for in-depth discussion.

Promote emotional well-being, in and out of the classroom.

With our social and emotional learning (SEL) courses, educators have powerful SEL solutions that can reduce behavior referrals and negative behaviors, increase student success, and build social skills.

Help students balance academic and athletic success.

Imagine Edgenuity's NCAA-approved curriculum helps student athletes fit learning into their busy schedules. These courses help students succeed in sports without sacrificing their education in the classroom.

"For us, it's really, really important to have a group that feels that school and sport aren't separate, but instead integrated. Because I think both of them provide our kids with a really unique level and opportunity to learn."

Peter Smith
President of United States Performance Academy

Prepare today's students for tomorrow's future.

With Imagine Edgenuity, we provide a catalog of highly relevant career and technical education (CTE) courses that students can take to explore their career interests or focus within a career pathway to help prepare them for industry-recognized certification exams or more advanced study and training.

Imagine Edgenuity's CTE courses support student success in school and after graduation.

“We’ve had students graduate early because of the flexibility of Edgenuity. The program is very user friendly, customizable, and has a big support base from customer service to onboarding.”

Kia Ireland-Hall, Edgenuity Administrator
Philadelphia Learning Academy South

Integrate Imagine Edgenuity seamlessly with your existing learning environment.

Our implementation experts work with schools to ensure you get the most out of your classroom tools. Imagine Edgenuity can integrate with your district’s existing learning management system (LMS) and student information system (SIS).

Professional development designed to support your success.

We offer a variety of learning opportunities, resources, and training options for educators to drive improved learning outcomes with Imagine Edgenuity:

BUILT-IN PRODUCT SUPPORT

Find help in our Help Center with 24/7 access to a growing library of product guides, articles, and videos on products and best practices.

PERSONALIZED COURSES

Our experienced professional development team will partner with you to create a custom plan aligned to your goals, with flexible delivery options.

KNOWLEDGE ACADEMY

An on-demand, convenient way to support your implementation through self-paced professional learning.

EDUCATOR COMMUNITY

You will have access to our educator community to share ideas and best practices or learn with other educators across the country using Imagine Edgenuity.
